

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office DEC -9 1919
 Returned to applicant for correction _____
 Corrected application filed _____

The undersigned J.T.Clark
Name of applicant
 of Tonopah, County of Nye,
 State of Nevada, hereby make application for
 permission to appropriate the public waters of the State of Nevada,
 as hereinafter stated. (If applicant is a corporation give date and
 place of incorporation.) _____

1. The source of the proposed appropriation is From Spring on S.E. $\frac{1}{4}$
Name of stream, lake, or other source.
N.E. $\frac{1}{4}$, Sec. 6, T 3, N.R. 48 E. to be conveyed by ditch to S.W. $\frac{1}{4}$ of N.W. $\frac{1}{4}$
of Sec. 5, T 3, N.R. 48 E.
2. The amount of water applied for is $\frac{1}{2}$ second-feet.
One second-foot equals 40 miners' inches.
3. The water to be used for irrigation and domestic purposes
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following
 point: S.E. $\frac{1}{4}$ of N.E. $\frac{1}{4}$ of Sec. 6, T 3, N.R. 48 E. about 100 ft. N.W.
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.
Clark's house at Five Mile Springs.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is 40
- (b) Description of land to be irrigated E. $\frac{1}{2}$ of S.E. $\frac{1}{4}$ of N.E. $\frac{1}{4}$ of
Describe by legal subdivision, or if on unsurveyed land it
Sec 6, T.3, N.R. 48 E. and S.W. $\frac{1}{4}$ of N.W. $\frac{1}{4}$ of Sec. 5, T 3, N R 48 E.
should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

- (c) Irrigation will begin about 15th April and end about
Month.
15th October, of each year.
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION

- (d) Power to be developed is _____ horsepower.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.
- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.
- (g) Remarks _____

191-6-3
 191-6-3
 191-6-3

DESCRIPTION OF PROPOSED WORKS

Water to be diverted by ditch 1 ft. deep by 1 ft. wide from point of State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water diversion to point of appropriation.

is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

The water will have to be mostly developed by cutting trenches for the purpose of draining and concentrating the surface water under one head of supply.

5. Estimated cost of works \$750.00

6. Estimated time required to construct works one yr.

7. Remarks Applicant has been using this water for domestic purposes and the purpose of this application is to get the unappropriated water to be put to a beneficial use.

J.T. Clark, Applicant.

, Engineer.

PROTESTED by Mary V. Clifford & John F. Clifford, January 10th, 1920.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.4 cubic feet per second.

Actual construction work shall begin on or before June 28, 1923.

Proof of commencement of work shall be filed before July 28, 1923.

Work must be prosecuted with reasonable diligence and be completed on or before June 28, 1924.

Proof of completion of work shall be filed before July 28, 1924.

Application of water to beneficial use shall be made on or before September 28, 1926.

Proof of the application of water to beneficial

use must be filed with State Engineer on or before October 28, 1926.

Map filed Dec. 5, 1924 (see #5671)

WITNESS MY HAND AND SEAL this 28th day of August, 1922.

Withdrawn by applicant

Robert A. Allen State Engineer

J. L. Sammons State Engineer

This permit is issued subject to all prior rights on the source, and in conjunction with permit Nos. 5671, 5899 and 5992. The amount of water herein granted is placed at 0.4 cubic foot per second for the full acreage applied for, notwithstanding the fact that a portion of this land is granted a water right under the above numbered permits for the waters of certain other springs. In this manner the full allowance of water may be diverted from the spring described in this application and permit in the event that there is a shortage or no water available from the other springs described in said permits Nos. 5671, 5899 and 5992. However, the total amount of water that can be diverted from all sources shall not exceed the statutory allowance of water in the proportion of one one-hundredth cubic foot per second for each acre of land proposed to be irrigated. The applicant will be required, at the time of filing proof of beneficial use of water, to definitely segregate the areas of land which obtain water from each of the sources described in these four permits, namely 5671, 5898, 5899 and 5992, so that certificates can be issued under said permits, describing the land to which the waters of each source are appurtenant. A substantial headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water here in granted at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.
